Summary

Hello! My name is Mark, I'm an experienced Frontend Web Developer with a focus on HTML and CSS, I have a keen eye for detail and a strong dedication to my work. I have expertise in UI design and development and have successfully built accessible websites that meet design specifications and customer requirements. I am a team player with the ability to work independently and I pride myself on maintaining clean code and efficient work practices.

Relevant Skills

Technical Expertise

- Developed, launched and supported a number of websites using frontend frameworks, and UI design principles for large and small businesses, resulting in increased customer satisfaction.
- Identified and resolved technical issues in software and hardware, leading to decreased downtime and an improvement in overall efficiency.

Team Collaboration

- Communicated and collaborated with global teams to maintain brand consistency and improve user engagement and successful project outcomes.
- Completed multiple projects within specified timelines, collaborated closely with product design, marketing, and quality assurance teams and consistently achieved high project success rates.

Customer Engagement

- Developed and executed engaging content strategies and increased website traffic and engagement among global audiences.
- Delivered technical support and maintenance for industrial equipment and applications, effectively met customer needs and received consistently positive feedback.

Education

Completed comprehensive secondary education (CSE and O'level qualifications).
